

**Now at NYCCE: Dry Herb Vaporization with PAX:**

We're excited to offer a new way to enjoy our flower—introducing PAX dry herb vaporizers! Now in stock: the PAX Mini and PAX Onyx.

PAX vaporizers use conduction heating to deliver smooth, clean, and flavorful vapor without burning your product.

- **PAX Mini:** Compact, discreet, and great for casual users. Features a single heat setting and small oven—perfect for quick sessions on the go.
- **PAX Onyx:** Ideal for experienced users. Offers four heat settings, a larger oven, and a *stealth mode* that reduces odor. **Bonus:** It also functions as a mini dab tool for concentrates.

**Explore a cleaner way to consume—now available at NYCCE!**

**For More Detailed Information Read More About The  
Product Below:**

Meet the PAX Onyx Dry Herb Vaporizer – where style meets performance.

Pure Dry Herb/ Concentrate Experience

Engineered specifically for loose leaf flower, delivering smooth, flavorful vapor without combustion. The Pax Onyx also comes with a concentrate attachment.

No Harsh Smoke !

True Vaporization preserves terpenes and cannabinoids, delivering a cleaner, smoother hit with less odor and no harsh smoke.
